**TAGLINE USAGE**

**Explanation:** The tagline “Fighting Hunger. Feeding Hope.” is set in Newake Regular with each phrase followed a period. It is not required on all materials but is recommended for regular use. The primary use of the tagline is as a unit with the logo. If used as a design element, “Fighting Hunger. Feeding Hope” should be set in upper case in Newake Regular and set in PMS 371 when used with full-color logo. When the tagline appears with the primary logo, the two elements together are called the logo and tagline lock-up. This means that they are locked into a specific relationship to one another and form a single unit. The elements may not be rearranged or the relationship altered in any way to change the logo’s graphic integrity.

When the tagline “Fighting Hunger. Feeding Hope.” is used separately without primary logo, it should be set in upper case in Newake Regular. Tagline must be set to PMS 371. When used as a reverse or one-color treatment, PMS 144, black, or white is acceptable. Please refer to page 3 of branding & style guide for color treatment.

To ensure its legibility and clarity, and to help ensure consistency, the overall width of the logo with tagline should be no smaller than 1.75” (1/3/4”) for stacked treatment and 2” with horizontal treatment. When presented separately without logo, tagline font size should be no lower than 5 pt and or 1.375” (13/8”)
